

Creation of nohep club in learning institutions

MR WILLIAM GACHEMI

DESCRIPTION

Creation of worldwide (no hep club) in learning institutions .the club will have a universal name, the wha president will be the clubs patron, assisted by regional coordinators across all continents, each country to have a chairperson to co ordinate the clubs activities. The main target for this project are the students who will join the movement on basis of good will .

PUBLIC HEALTH IMPACT

- 11.creation of hep virus awareness across the globe
- 2 reduction of stigma as a result of ignorance reduction through awareness
- 3.Increased early detection of hep virus among the young people through screening activities to be organised by the club.
- 4 increased community awareness of hep disease as club members will be holding seminars in public places and online

WHY IS THIS INNOVATIVE?

- 11.the club will open a platform for young generation to be enlightened on hep virus
- 2.Vision 2030 of eradication of hep virus from the globe will become a reality as the club will enhance awareness, hence early detection of disease and subsequently treatment of patients.

Proposed club name,
:Nohep club international:

Clubs activities include but not limited to:

- 1.Active participation in commemorating world hepatitis day
- 2,raising funds to facilitate screening of hepatitis in their institutions
- 3.Promoting awareness of hepatitis in their institutions through seminars ,posters etc.
- 4.Talent shows with an aim to identify creative ways that be of use in eliminating hep virus by 2030
